Celebrating our team at Sovereign Housing

We are pleased to share how the team at Sovereign Housing has been supporting its residents. One of the tenants contacted Sovereign Housing to thank the cleaning team.

Jon Tremlett, Senior Commercial Manager, said, “A Resident called to advise that there were stains all over the communal doors and this has been attended to and removed. The resident advised that he wanted to pass across his thanks as whenever we attend, we always do a brilliant job. Please pass thanks across to relevant teams”.

Sovereign provides housing for almost 60,000 residents across the UK, striving for quality, affordable homes in happy, successful places. Since 2017, Nviro has been working in partnership with Sovereign, supporting its community in Hampshire, Isle of Wight, and Dorset, providing clean, hygienic and safe environments for their residents to thrive.

Well done to the team at Sovereign Housing.
